

BANKMUDRAA

Retailer Portal — Navbar Services & Operations Guide

Every dropdown, decoded — with the live menus themselves — 43 services, 10 reports, 7 payment tools, packages, value top-ups and the support desk.

Prepared for internal review

Six menus, sixty-five tools

Everything a retailer needs lives behind one of six top-navbar dropdowns.

Menu	Items	Primary retailer purpose
All Services	43	Front-end digital banking, DMT remittance, bill payments, recharges, travel & insurance
Reports	10	Real-time passbooks, audit ledgers, UTR/RRN search, re-query status & receipt reprint
Payments	7	Shop working-capital tools: add funds, settle AEPS/Cashback to bank, zero-fee transfer
Value	1	Instant 24x7 Main Wallet load via Payment Gateway (UPI QR, Cards, NetBanking)
Package	2	View active commission plan tiers (Silver, Gold, Platinum) and upgrade packages
Help & Support	2	Direct digital dispute ticketing for failed or pending transactions

The three-wallet system

Every service, report and settlement tool ultimately moves money between these three wallets.

Main Wallet

OPERATING BALANCE

Pays for every Money Transfer (DMT), BBPS bill payment, mobile/DTH recharge and IRCTC ticket.

AEPS Wallet

CASH COLLECTION

Holds money withdrawn from customers' bank accounts via Aadhaar biometrics or ATM card.

Cashback Wallet

COMMISSION INCOME

Real-time commissions, incentives and rebates earned on every completed transaction.

AEPS → Main Wallet moves at **₹0 fee, instantly** — the single most recommended habit for a retailer's cash flow. Cashback redeems into Main Wallet or disburses straight to a bank account or UPI ID.

Six categories cover every service

From Aadhaar banking to water bills — grouped by what the customer is trying to do.

8

Banking & Transfers

Aadhaar Deposit/Withdraw, AFT, B2B, B2B Bank Transfer, B2B UPI, Bank Transfer (DMT), PPI Bank Transfer

15

Bill Payments & Utilities

Electricity, Electricity Prepaid, Water, Broadband, Cable TV, DTH, Fastag, Piped Gas, LPG, Landline, Mobile Recharge & Postpaid, Metro, NCMC

6

Insurance & Financial

Health, Life & General Insurance, Loan Repayment (EMI), National Pension Scheme, Recurring Deposit

7

Government & Institutional

Donation, Education Fees, Hospital, Hospital & Pathology, Housing Society, Municipal Services & Taxes

4

Travel & Booking

Bus, Flight, Hotel, IRCTC (authorized railway agent counter)

3

Lifestyle & Other

Clubs & Associations, Rental, Subscription (OTT / software)

Aadhaar Deposit → Hospital & Pathology

The top of the live dropdown menu, exactly as the retailer sees it.

Banking & remittance

Aadhaar Deposit / Withdraw, AFT, B2B, B2B Bank Transfer, B2B UPI, Bank Transfer (DMT) — turn the shop into a cash-in/cash-out and remittance counter

Bills & recharges

Broadband, Cable TV, Credit Card, DTH, Electricity, Electricity (Prepaid), Fastag — the highest-frequency counter visits

Travel

Bus, Flight — seat booking with instant commission on every ticket

Institutional & insurance

Clubs and Associations, Donation, Education Fees, Health Insurance, Hospital, Hospital and Pathology — dues, fees and premiums paid via BBPS

Hotel → Water Bill Payment

Scrolling further down the same dropdown — the rest of the 43 services.

Travel & booking

Hotel, IRCTC — including the authorized railway agent counter for confirmed train tickets

Municipal & housing

Housing Society, Municipal Services, Municipal Taxes, Water Bill Payment — civic dues without a bank-branch queue

Insurance & financial

Insurance (General), Life Insurance, Loan Repayment (EMI), National Pension Scheme, Recurring Deposit

Utilities & recharge

Landline Postpaid, LPG Gas, Metro Recharge, Mobile Postpaid, Mobile Recharge, NCMC Recharge, Piped Gas

Transfers & lifestyle

PPI Bank Transfer (for DMT above the ₹25,000 ceiling), Rental, Subscription

The #1 remittance service in the portal

Send cash from a walk-in customer to any bank account in India, 24x7x365, in about 3 seconds via IMPS.

Customer inputs

Remitter mobile number, beneficiary name, bank name, account number, IFSC code

Penny Drop Verification

Confirms the exact registered account name before sending, to prevent misdirected transfers

Saved Beneficiaries

Return customers can be paid again in 2 clicks

How it works

Retailer collects cash + a small transfer charge, enters amount and 4-digit T-PIN — recipient receives funds via IMPS in ~3 seconds

The shop as a local mini-ATM

Any customer with an Aadhaar-linked bank account can withdraw cash by fingerprint.

Supported devices

Mantra MFS100/L1 · Morpho MSO1300/L1 · SecuGen · Startek FM220 · Precision · Iris · Aadhaar Face RD (face scan)

Customer inputs

Customer bank, 12-digit Aadhaar number, mobile number, amount (₹100 to ₹10,000)

How it works

Retailer completes a one-time morning 2FA fingerprint auth. Per customer: select bank, scan finger, funds credit instantly to the AEPS Wallet, retailer hands over physical cash.

Retailer benefit

Tiered slab commission up to

₹10–₹13

per withdrawal

Also rotates physical cash into digital working balance — every withdrawal both earns commission and rebuilds the Main Wallet via the AEPS-to-Main zero-fee transfer.

A passbook for every rail

Every report offers a date filter, search, Excel/CSV export, and receipt reprint.

AEPS Ledger Report	AEPS Wallet passbook — every cash-withdraw credit and bank/Main-Wallet debit
Aeps Payout Report	AEPS payouts to the retailer's bank — UTR, mode, confirmation status
AEPS Transaction Report	Full biometric audit log with error codes for declines
B2B BT Transaction Report	B2B vendor payments and business payouts with client tags
Bank Transfer (DMT) Report	Primary DMT ledger — search by mobile/account, Check Status (Re-Query)
IRCTC Report	PNRs, fare, agent commission, cancellation/refund records
Pay In Report	Funds received via UPI QR collections and online top-ups
PPI Bank Transfer Report	Audit trail for PPI remittances — KYC identifiers, timestamps
Utility Transaction Report	All BBPS bill payments & recharges — Biller IDs, receipt printing
Wallet Transaction Report	Master Main Wallet passbook — opening to closing balance

Managing the shop's working capital

Add funds, settle wallets to the bank, and track every top-up request.

ADD Fund Request

Manual top-up after an offline NEFT/RTGS/IMPS deposit — enter bank, UTR, amount, upload the slip

AEPS Wallet Settlement

Move AEPS cash to the verified bank via instant IMPS or free NEFT

AEPS Wallet to Main Wallet ★

Zero-fee, instant transfer — reuse cash-out earnings for recharges, bills and DMT

Cashback Settlement

Redeem commission/bonus earnings into the Main Wallet or straight to the bank

Company Bank Details

Verified BankMudraa corporate accounts — check before any offline transfer

Fund Request History (Company)

Live status: Approved, Pending Verification, or Rejected with reason

Fund Request to ZSM/ASM/SD/DS

Status of top-ups raised through the local distributor hierarchy

Subscription tiers and emergency top-ups

Two small menus that shape a retailer's margins and keep the counter running.

PACKAGE

Package List

View Standard, Silver, Gold and Platinum plans — commission slab boosts on AEPS/DMT, zero-fee BBPS — and purchase in one click from the Main Wallet.

Package History

Current active package, activation and renewal/expiry dates, invoice download, and past subscription history.

VALUE

Online Payment

Emergency instant wallet top-up

When the Main Wallet hits zero with a customer waiting, top up within 10 seconds via the payment gateway.

- UPI QR (PhonePe, GPay, Paytm)
- Debit / Credit Card
- NetBanking

Getting a failed transaction resolved

If a wallet was debited but the operator shows pending or failed, this is the path back to a refund.

Add Ticket

Raise a dispute with Transaction ID, amount, category and a screenshot — route: /add-ticket

List Ticket

Track live status — Open, In-Progress, Resolved — with helpdesk replies on the thread — route: /list-tickets

Pending Tickets

Filtered view of List Ticket showing only disputes still awaiting resolution

Closed Tickets

Filtered view showing resolved disputes and their final refund timestamp

Three rules every retailer follows

1

Never share your T-PIN

The 4-digit Transaction PIN authorizes every money debit. Never reveal it to customers, friends, or callers claiming to be company executives.

2

Mandatory 2FA daily auth

Biometric merchants must complete their own Aadhaar authentication every morning before starting customer transactions, per NPCI/RBI guidelines.

3

Always give printed receipts

Every transaction generates an official receipt with an RRN or UTR number. Always hand this to the customer as proof of payment.

Sixty-five tools. One navbar.

From an Aadhaar cash withdrawal to a railway ticket to a disputed transaction — every retailer workflow starts at the top navbar and ends in one of three wallets.

Thank you
